Only Morning Daily in Southern Illinois.

OFFICIAL PAPER OF THE CITY AND COUNTY.

ABOUT THE CITY.

—For other local matter, see 7th page.
—Use Holder's Patent Blotter Pads in your job printing. The newest thing out.
—A daughter in the house of F. Malinski—a new daughter—makes the father happy.
—Judge Baker is holding court at Metropolis. An important murder case is engaging his attention.
—The body of J. W. Rogers, M. D., of Washington City, was brought to this city on the James D. Parker.
—Dr. D. H. Parker is a shooting club man. Glass balls and a shot gun are also weaknesses of Mr. Thomas Halliday.
—The rumor that Mr. Egnew proposes to surrender his lease of the St. Charles hotel is denied by that gentleman. He proposes to stick.
—The ferryboat Three States is now making trips to Fort Jefferson daily. Parties contemplating excursions should make a note of this.
—Our friend Davis, of the Sun, wishes to know "Who'll be Queen of the May?" We vote for Davis. He is an old girl and entitled to the honor.
—We regret to learn that Mr. James Johnson, of the Illinois Central, is afflicted as Job was. He is not in hot water, but he has come to a boil.
—A Gypsy camp has been pitched near Kendall's Gardens in the Fifth ward. The members are driving a brisk trade in horses and fortune telling.
—Our young man, who collects for the **BULLETIN**, received a \$2.50 gold piece yesterday. He has become a resumptionist, and declares gold money to be the money of the world.
—Moonlight, music and pleasure will be the order of the night on the Idlewild next Saturday evening, as she steams up the river to Metropolis with her cargo of youth and beauty.
—Traffic on all the railroads is exceedingly light. And the river is not doing much. But both railroads and rivers are getting ready to be very much crowded with business.
—Richard Taylor, the colored man, has been appointed one of Mr. Alden's Deputy Assessors. Mr. Samuel Hazlewood, of Hazlewood precinct, has been also made a Deputy of Mr. Alden.
—Col. Lowery, the temperance orator, addressed a temperance meeting at Cobden last night. He will address the Cairo Reform club to-night. He is an eloquent and very effective public speaker.
—The ladies of the M. E. Church are completing their arrangements for an Ice-cream and Strawberry Festival, to be given on the evening of the 9th inst. Look out for full programme to-morrow.
—Mrs. Alvord, Mrs. Candee and other ladies of the Episcopal church, are all very much interested in the success of the entertainment to be given by Mrs. Galigher to-night. They predict that the affair will be a thing of beauty and a joy forever.
—The Ballard county (Ky.) News says that Ballard county will be able to survive the fact that the terminus of the Mississippi Central railroad, opposite this city, is to be called East Cairo. This is gratifying intelligence.
—The pilot, Geo. Dougherty, believed to be one of the unfortunate men who lost

their lives yesterday by the explosion of the Warner, was well-known in this city. He had among our townspeople a host of warm friends who will heartily mourn his untimely death.

—The friends of our public schools will be pleased to learn of their improved and improving condition, financially. The fund will be ample to meet all the requirements of the current scholastic year, and there will be no borrowing, as has been the case in preceding years.

—Mr. Thos. Lewis, formerly our "boss" in the printing business, leamed upon us yesterday. He entered the composition room with all the buoyancy of a young man of twenty-one, admitted the new types, and asked us to insure our life in his Cairo society.

—The cry is beginning to run about the city, from mouth to mouth: "Let there be light" in the street lamps. Gas? Not necessarily; but light of some kind. Give us oil lamps if gas is too expensive. For, in fact, it is a shame that Cairo continues to stumble along in the darkness.

—We saw a light, watery green necktie displayed around the swan-like throat of a young lady-killer yesterday. Next to a vivid blue, the pale and cadaverous green seems to be the most fetching thing in the way of neckties. The wearer was a skater and member of a base-ball club.

—Use Holder's Patent Blotter Pads in your job printing. The newest thing out.

—A negro man passing along Eighth street last night, while in front of the store of Chas. R. Stuart, "lifted" a couple of bolts of calico and was making off with them, when a negro woman who saw the theft, raised an alarm. The thief ran, dropping the calico, which was recovered. The thief has not been caught.

—Holder's Patent Blotter Pad—the latest and best method for putting up job printing and stationery. It is rapidly growing in use all over the country. Mr. Jno. H. Oberly owns the right of Alexander, Union, Pulaski, Jackson, Randolph, Williamson, Johnson and Saline counties in Southern Illinois, and Mississippi county in Missouri.

—Mrs. Elizabeth Branton Harbert, of Evanston, Illinois, will lecture at the Athenaeum on Tuesday evening next. The lecture will be made for the benefit of the Illinois Industrial School for Girls, in which our Mrs. Dr. Warner is so much interested. Mrs. Harbert will tell us what she knows, or thinks she knows, about "Men's Rights."
—The city authorities should look after a dangerous hole in the street about two hundred feet west of Commercial avenue, on Seventeenth street. The old sewer that ran under the street has fallen in, leaving an abrupt pitfall of a foot or eighteen inches. If this piece of street is not speedily amended, a serious accident will inevitably result.

—If Alderman Halliday could be induced to believe that Cairo is rich enough to invest in oil or gas; and if the other aldermen could be persuaded to believe the same thing; and if Mayor Winter could be coaxed to endorse the street-lighting proposition, our streets would soon be illuminated, and necks would be far safer at night than they now are.

—An old strabismus-eyed offender of the weaker sex, made the neighborhood of the custom house hideouts at an early hour yesterday morning. She fairly streaked the atmosphere with equal parts of benzine and blasphemy, and delighted the youthful colored hoodlums who constituted her audience. She richly deserved cooling off at municipal expense.

—We are now making arrangements for a complete remodeling of the **BULLETIN** Job Rooms. With the addition of the latest styles of job type, of beautiful design and finish, in the hands of workmen who thoroughly understand their business, we hope to turn out work inferior to no other office in the State, on the most reasonable terms, and shall endeavor to keep a promise when made—as to time of delivery and character of work.

—The new dress in which **THE BULLETIN** appears this morning, was furnished by Marder, Luse & Co., type founders, of Chicago. It speaks for itself—we are too modest to brag of it. It will be of interest to printers however, to know that, with a few trifling exceptions, the order, as made out in the beginning, was promptly and very correctly filled. The rarity of such an occurrence is worthy of especial mention, and Messrs. M. L. & Co. deserve notice and credit for it.

—A party of horse-race lovers are making up a purse—borrowing money from their friends—for the purpose of defraying their expenses while they visit Louisville on the Fourth of July to witness the great four-mile heat race between the Californian mare, Mollie McCarthy, and the great Kentucky racer, Ten Beek.

—At the church entertainment at the residence of Mrs. Galigher to-night, it should be borne in mind that the admission fee, including supper, is twenty-five cents; cakes and ice cream extra.

—The young people of the city are on the qui vive. The proposed moonlight excursion on the favorite steamer Idlewild, to Metropolis on Saturday night, has set them astir, and it is predicted that the affair will be an exceedingly pleasant one. Capt. Jack Grammar is the affable master of the Idlewild now, and that "Jolly boy," John Nurre, is the clerk. Harry Holt's Evansville String band will furnish music for the occasion. The Idlewild will leave the wharf at seven o'clock sharp. The fare for the round trip has been placed at one dol-

lar. Tickets can be procured of James Biggs, at his office on Ohio levee.

—The wedding of Mr. Patrick Mockler and Mrs. Mary Wagner, last night, at the Catholic church, was a brilliant affair in its way. At 8 o'clock the ceremony was performed by Father Zabel in the presence of a large number of the friends and acquaintances of the bride and groom. After the knot had been tied, the party returned to the Delta House, over which Mr. Mockler presides as the host, and several hours were spent in innocent enjoyment. Mayor Winter graced the occasion by his presence, and was supported by two of his most efficient policemen—Messrs. McCarthy and Sargent. **THE BULLETIN** extends its congratulations to the happy couple.

—There was a social gathering of the African Methodist Sunday School last night at Phillips' Hall. The exercises were opened with a song by the choir of the church, followed by an original essay entitled: "Flowers," by one of the Sunday school pupils. After this Mr. T. Morris Chester, ex-Superintendent of Public Instruction of Louisiana, and a prominent Odd-Fellow, addressed the audience, instructing them how to behave and telling them that education was of more value to their race than wealth or political position. Mr. Chester is a public speaker of much ability. At the conclusion of Mr. Chester's speech, the May Queen—whose name we did not learn—made an address thanking her associates for the honor they had done her in making her Queen of the May. Mr. Gladney was then presented with a bouquet by Prof. Finn, as a mark of the esteem in which that gentleman is held by the African Methodist Sunday school. Mr. Gladney replied briefly, thanking the school and complimenting it upon its good behavior. The exercises were then closed by a song sung by the choir. The audience was large, well-dressed and orderly.

PARTIES owning valuable watches requiring repairing, can safely intrust them to Mr. Houtt the Jeweler.

RIVER DISASTER.

EXPLOSION OF THE TOWBOAT WARREN, AT MEMPHIS.—ALL THE CREW LOST BUT ONE MAN.—PILOT GEO. DOUGHERTY BELIEVED TO BE AMONG THE LOST.

The telegraph yesterday brought the intelligence that the towboat Warner, which has been running between St. Louis and New Orleans in the bulk grain trade, exploded her boilers near Memphis and sunk in deep water. It is believed that all on board, except Mate Cassidy and three rowboats, were lost. The Warner was commanded by Captain George Dawson, whose brother, Captain James Dawson, was on the Crescent City. Mr. George Dougherty was one of her pilots. These are all the facts relative to the terrible disaster that Mr. Kent, the manager of the Western Union office in this city, could get yesterday. The Warner was an excellent tow-boat and was on her way up the river at the time of the disaster.

—Have your job printing put up in Holder's Patent Blotter Pads. It is neat, involves no extra expense, and is stationery-saving. Drop in at **THE BULLETIN** office and see it.

MR. F. KORSMEYER is just in receipt of a very large and select stock of Key West and imported cigars, to which he calls the special attention of smokers.

CHICAGO ICE CREAM.

I am now prepared to furnish the above cream at my

LADIES' ICE CREAM PARLORS having had a practical workman of that city in my employ for the past eight months who worked in the largest ice cream factory in that city. I have also furnished my parlors with fine marble top tables and finest chairs; in fact I have as fine a place as any in larger cities. I wait on my patrons myself and will see that they receive prompt attention. Call and be convinced.

GRAND EXCURSION.

TO METROPOLIS AND RETURN ON THE STEAMER IDLEWILD.

The splendid steamer Idlewild will make a moonlight excursion to Metropolis, Saturday evening, May 4: Leaving this port at 6:30; Mound City, 7:00; Cairodon, 7:30; arriving at Metropolis at 9:30. Will leave Metropolis at 10:30, arriving at Cairo at 1 o'clock p. m. A splendid band of music on board, and a delightful time is anticipated. Tickets, including refreshments, one dollar. Will make the trip as advertised, and none will be disappointed. Captain, G. J. Grammar; clerk, Jno. Nurre; ticket agent, James Biggs.

The last green apples of the season may be had at E. W. Thielecke's stand, on Eighth street.

Persons wishing anything in the line of millinery goods, will do well to call at the establishment of Mrs. H. S. Carson & Co., as the goods are all fresh, new and of the latest importations, styles and fashions. New goods just received and will be during the season every few days. All are invited to call at the establishment, on Commercial avenue, opposite Winter's block, near Seventh street (formerly occupied as a toy store), Cairo, Illinois.

OUR DAVID.

SOME MISTATEMENTS OF A FRIENDLY KIND CORRECTED.

On the sixth page of this issue of **THE BULLETIN** we publish a sketch of the newspaper-publishing experience of our fellow-townsmen, Mr. D. T. Linegar, taken from the Rockford (Ind.) Gazette. The editor of that paper has fallen into certain errors about Mr. Linegar's history after the sale of the Courier to Mr. Phillips.

While teaching school and editing Mr. Linegar studied law, and was admitted to the bar at Princeton, Indiana, in the early part of 1857. He commenced his profession there in that year, and in the Fall of 1858 removed to Fairfield, Wayne county, Illinois. He arrived at Fairfield on election day—the contest being the celebrated one between Lincoln and Douglas for the United States Senatorship. Without delay he entered upon the practice of law in Wayne county, and soon extended his practice into the counties of White, Edwards and Hamilton in the then Twelfth Judicial Circuit of this State. In 1860, he was nominated for Congress by the delegates to the Decatur State Republican Convention from the Ninth Congressional District. The District was composed of eighteen counties extending from Cairo to the Ohio and Mississippi railroad. He made an address in every county of the district but two—Pulaski and Johnson. Mr. John A. Logan was the Democratic competitor of Mr. Linegar, and was challenged by him to a joint discussion. Mr. Logan accepted the challenge, and they met in five different discussions, that being all the time Mr. Logan could spare.

In June, 1861, Mr. Linegar came to Cairo, and since that time has resided here. He was a Republican elector at large in the Grant campaign of 1872, and continued with the Republicans until after the publication of the report of the Congressional Committee on affairs in Louisiana. He could see no good cause for the course pursued by the administration towards the government of that State, and without hesitation joined the Democrats in their opposition to the attempt to break down State lines and centralize all power at Washington. He was a big Republican gun, but he is a whole Democratic battery.

THE FALL OF CONSTANTINOPLE.

Would not affect the business of A. Marx, 61 Ohio Levee. Should the Russian army get out of clothing he could furnish them with finer clothing than were ever displayed in the store of any Moscowite. If the Turks would like to know what the best and latest styles of suits, hats, scarfs, white vests, etc., Marx is the man who can give them accurate information. He has a fine line of suits, hats, scarfs, etc., and his prices are as low as the lowest.

LIVERY & SALE STABLES.—Put Fitzgerald, at the corner of Fourteenth street and Commercial avenue, offers to the public the best livery rigs in Southern Illinois, at the most reasonable rates. Orders may be sent as above, with assurance that they will be promptly filled.

THE EUROPEAN HOTEL, Sixth street, between Commercial and Washington avenues, conducted by Mrs. Harry Walker, offers superior inducements to the public. All the appointments are first-class, and the tables are supplied with the best our market affords, well cooked and served.

THE RAILROAD STRIP.

WHAT SHALL BE DONE WITH IT.—A SUGGESTION THAT IT BE USED FOR RAILROAD PURPOSES.

What is known as the Illinois Central railroad strip has passed into the possession of the city. The object of this transfer was, no doubt, for some proper purpose to the public, and the good that can come of it should not be lost.

The strip is one hundred feet wide and extends from Railroad avenue, in the northern part of the city, to Washington Avenue, in the southern part of the city. Excepting between Eighteenth street and Fourteenth street, this would furnish track room for two or three railroads through the city without interruption to the public streets. If the Cairo and Vincennes and the Cairo and St. Louis railroads would act in conjunction with each other and place their tracks upon this strip, they would each have an elegant and convenient approach into the business portion of the city. It was the expressed object and intention of the city council and the friends of the movement, at the time the transfer was being made, to have the strip devoted to railroad purposes, if at all practicable. Different plans have been suggested. Some favor the filling of the strip to a grade with the cross streets below Fourteenth, while others favor the old plan that was agreed upon between the Cairo City Property Company and the Illinois Central Railroad Company in the original agreement between those parties, which was to place the track on a grade below the natural level of the strip so as to allow the cars to pass under bridges at the cross streets.

The advantages of this plan would be that the trains would not come in contact with the public use of any of the streets. The railroads would be entirely upon their own right of way free from the annoyances of ordinariness governing trains upon the streets. It would make the delivery and receipt of freights and passengers cheap, speedy and convenient, and convert what is

now an eye-sore and a nuisance into the handsomest and best railroad yard in any city in the country.

While **THE BULLETIN** does not propose to become the advocate of any particular or special plan in regard to this matter, it feels that it is a matter of high public importance. It is worthy of consideration by the people and the railroads. It would not cost the roads any very large sum of money to make a survey, and ascertain what is the best plan for a permanent occupancy of this strip.

The columns of **THE BULLETIN** are open to any one who desires to discuss the proper use to be made of the strip. The public is interested in this matter and we should be glad to see the citizens and property-owners take an interest in the matter.
